

# 2008 DHIA HERD AVERAGES

*Ranked by Pounds of Protein*

Herd averages from September 30, 2008 are listed for DHIA herds that give written authorization, regardless of testing plan or DHIA Affiliate.

Less than half of the state's DHIA herds choose to participate.

DHIA herd averages are provided by the Heart of America DHIA with the permission from each producer listed. Heart of America DHIA obtains this data from the dairy records processing centers, and intends to provide this information to the Nebraska State Dairy Association as accurately as possible, but cannot be held responsible for errors and/or omissions that may occur.

Type of Test plans: (many herds use variations of these plans)

00-DHI all milkings weighed and sampled by DHI technician

01-DHI APT alternating AM/PM mlkgs wghd & smpld by DHI tech, time monitor used

02-DHI APCS both milkings weighed, 1 milking sampled by technician

20-DHIR same as 00, breed association program

21-DHIR APT same as 01, breed association program

22-DHIR APCS same as 02, breed association program

23-DHIR AP same as 31, breed association program

31-DHI AP same as 01, no timer used

40-DHI OS all milkings weighed and sampled by owner or his agent

41-DHI OS AP alternating AM/PM milkings weighed & sampled by owner or agent

42-DHI OS APCS same as 02, weighed & sampled by owner or his agent

72-SS APCS same as 02, supervisor sampled

DCR = Data Collection Rating. A USDA calculation indicating the relative value or reliability of the record. Some of the factors in the DCR include if certified meters are used; the number of milkings tested; the number of tests per year; if the tests are conducted by a certified DHI technician, and the frequency of component sampling.
